No. 1868—Seventh Year. BUENOS AYRES, THURSDAY, APRIL 23, 1868. Circulation 2500

MAUA BANK,
101-103 CALLE CANGALLO

The offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of checques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given at the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 9 a.m. till 3 p.m.

The Company insures against loss or Damage by Fire Private Dwelling-Houses, Goods Deposited in Specific Warehouses of Stone or Brick, &c., &c.; and also issues "Floating Policies," extending to the Custom-House and all or any of the Private and Bonded Stores.

The whole advantages which can possibly be contemplated by those desiring to effect Fire Insurances, may be resolved into the following:—

1st. Security.
2nd. Honor and liberality on the part of the Company, in whose hands they place their interest; and
3rd. The purchase of these advantages at a moderate rate.

It will be found that all these are presented by this Company to the Public in an eminent degree.

The Company's large Capital, under the immediate management of the Directors of this Establishment, affords perfect security to the Assured, while it may confidently assert, from the Constitution of the Board of Direction, from the character of its present Members, and from the qualifications which will be deemed indispensable in their successors, that the highest honor and liberality will ever characterize all its transactions.

It has been the object of the Directors, in their minor arrangements, to afford every possible facility to those effecting Assurances with the Alliance, and the undersigned hold a Power of Attorney enabling them to settle at once any Losses that may occur from Fire, Lightning, or Explosions of Gas in Buildings, on or in which this Company has granted Assurances.

From Sunday, 15th September, inclusive, the following alterations will be made in the Traffic: One third of the First Class Saloons will be converted into smoking apartments, with communication with the other part of the saloons. The cars hitherto used as Smoking Saloons will be used entirely for second class passengers. First class passengers will pay, as at present, five dollars, children from 3 to 10 years, three dollars; second class, three dollars, children two dollars. Return tickets, good for the day, will be given—first class eight dollars, children five dollars; second class five dollars, children three; also monthly tickets of first class for two hundred dollars.

Flag stations at Casa Amarilla and Barrada de Peña. Passengers wishing to alight there will give previous notice to the guard.

HARRY SIMPSON, Manager.

LATEST FROM MONTEVIDEO.

Montevideo, April 22,
Half-past Five.

Government has liberated Dr. Navarro Viola and Susviela, and some others. Fears of a row subsided.

Interpellacion of Minister by Chambers to-day amounts to nothing.

Two American officers of the Shamokin were attacked last night by soldiers near the Custom-house. One received a severe sabre wound in the face, cutting from eye to chin; the other a cut on the side of the head, opening in the region of ear. Captain Crosbie, with the American Consul, has waited to-day on Government about the matter. Great indignation at such a scandalous assault being perpetrated by soldiers. Government is determined to punish them. The officers are out of danger, but very badly wounded.

Rainy weather all day. Little business.

Exchange on England, £10,000 at 46. As high as 12½ paid to-day for sove reigns. Bills for large amounts on Buenos Ayres passed at 11½ premium.

Steam transport, with troops from Rio, in. Brings no later dates. Sovereigns, 14.

The American war steamer Kearsage to arrive here from Rio in few days, en route for the Pacific.

Government has received satisfactory advices from Uruguay. No revolution or invasion. Mr. Bell arrived to-day: reports everything quiet.

Maximo Perez about to be made a General.

Commander Crosbie, of Shamokin, leaves for the States, promoted to Captain. Captain Brains takes command of the Shamokin.

A petition for and against resumption of specie payments, going the rounds. A great meeting talked of. The general belief is that banks here will refuse to avail of any further extension of time, and thus force the other banks to pay up or smash.

Several parties helping to bring this about, and the affair is thus completely taken out of the hands of Government and the Chambers.

Some two or three other failures talked of; mostly small grocery firms—unimportant.

Don Bernard Barrans, manager of the Hotel San Martin, Buenos Ayres, next to Bolsa, to-day gets charge of the Hotel Americano.

Mr. Lettsom's effects will be sold off by auction on Friday. He leaves in the packet.

The Kate Sergent, from Falkland Islands, with mail, just arrived.

Sales in Bolsa to-day. Several sales of gold at 11½ prem. rising.

Exchange, £4,000 at 46½; £11,000 at 46.

On France, heavy amount at 490: on Rio, about 100 contos at 40.

7,000 dry hides at 60 rls.; few hides in market, all bought up. 4,400 arobes wool from $3 10r. to $2 20r.

OUR TRIP TO MONTEVIDEO.

On the plea of change of air, and attending the English races, we started on Saturday, per steamer Rio Negro, for Montevideo. The gross and scandalous neglect of the Port Captain of Buenos Ayres in allowing the peones and boatmen to charge in one phalanx upon unfortunate travellers as they approach the mole, almost deprived us of the pleasure of the trip which our doctor had prescribed. It would seem as if those amphibious long shore men could judge by our countenance the debility consequent on rheumatic fever, for they laid hold of the few articles of luggage which a sickly and impoverished editor could boast of, and, with the aid of seven peones, and about fifteen different whaleboat men, each and every one of whom expected we were about to engage his boat, we at last arrived at the stairs, and soon found ourself in the sternsheets of an old whaleboat, sitting side by side with Dr. Navarro Viola, and some other distinguished Argentines bound for the steamer Rio Negro. As is always the case, the wind was dead ahead, and we had to steer, first for the Gas-house, next for the Boca, then for Colonia, and at last made the steamer.

The Rio Negro is one of the finest steamers in this river, built under the superintendence of Captain Bruce, and possesses all the requirements for the river trade, but she has one great defect; she is too fast. We left at five o'clock, and arrived at Montevideo at the unreasonable hour of half-past two a.m., after which it is impossible to sleep, owing to the noise and disturbance on deck. As a matter of course, the steamer was crowded with passengers, most of whom came from the Uruguay. Dinner was served up at six o'clock, and such a dinner! We counted sixteen removes. When we got as far as the fifth we thought of Cornelius O'Dowd and Theodore Hook, that we might as well take out the remainder in money, but the rapacious appetites of our Urugnay friends seemed fully equal to the efforts of the cook. We missed, however, on board this splendid steamer the comfortable easy chairs of the Edward Everett, and the pleasant drawing-room to pass the evening. There are no matrimonial state rooms, and Captain Bruce, when he built this steamer, evidently aimed at establishing a divorce "á thoro" whilst on board.

Montevideo, seen from the harbor at half-past two o'clock in the morning, presents few attractions. We counted five or six gaslights in the neighborhood of the Custom-house; the rest of the city was in impenetrable darkness. Buenos Ayres has much the advantage in this respect, as at night-time the Athens of South America, seen from the outer roads, presents a most illuminated picture. We pushed ashore at six o'clock, and found half Montevideo asleep; even Sr. Rawson, the proprietor of the stately Hotel Oriental, was in bed. Sunday is a day of business in the Mount; all the shops in the different streets are opened, and we are informed that the retail trade is brisker on that day than on any other during the week.

The city is at present crowded, and notwithstanding all the new buildings of last year, almost every decent, respectable house, from the Cordon to the Custom-house, is tenanted. Parties who intend sojourning in Montevideo should take the precaution to secure rooms beforehand, otherwise they may find themselves in the dilemma of the Messrs. Woodgate, Rom, and others, who arrived down here on Sunday evening, by Rio Uruguay, and could not find a bed in any of the first-class hotels for that night. It must be borne in mind that the hotel accommodation in Montevideo is on a larger scale, and infinitely superior to that of Buenos Ayres. Yet, nevertheless, the hotels of the latter are nearly always half-empty, whilst those of the former are for ever full. It is almost incredible the fortunes which are made by some of the Montevidean hotelkeepers: Sr. Rawson, of the Hotel Oriental, is an instance of this. His establishment is, 'par excellence,' the great Hotel of the River Plate. We are happy to say that it is much improved since our last visit. The building, which is one of the finest in the city, is erected on one of the most valuable sites, and belongs to him. In a few years he will pay off the only mortgage on the premises, and will then be the richest hotel proprietor in South America.

We are pained to admit that the Montevideo of to-day is, with all its improvements, with all its vaunted progress, far behind the Montevideo of former years; what cause to attribute this to, is by no means an easy task for a casual sojourner: it may be the forced currency nightmare which, at the moment weighs on the nation, or perhaps it is the reaction consequent to the sanguinary dramas of last February. There is a feeling of great uncertainty pervading everything; even the very day we landed, rumour of a revolution to take place at half-past three that afternoon reached our ears as we drove out to the Rockaway of Montevideo—commonly called the Buceo—and whilst we wandered along that beach we saw soldiers and vigilantes galloping to and fro; when returning by the Union, we met crowds of free and enlightened electors, who looked suspiciously enough at our unpretending vehicle. We have neither room nor inclination now to enter into a long disquisition on Montevidean sorrows; but the jocund elasticity of Oriental charms is gone, and ceaseless civil strife has left in its place a grave sullenness almost approaching dejection.

The line of tramway is made out all the way to the Union, and in a few days will be inaugurated. This enterprise is no longer in the hands of Mr Sauzé, the ci-devant diligence proproprietor of the Argentine Republic. The line is owned by five or six wealthy Oriental capitalists, and if well managed, will doubtless pay a handsome profit.

As for the races we have not much to say, the heavy rains on Sunday night, and the threatening weather on Monday morning prevented our attending, being in infirm health; Mr. Smith, however, kindly acted as special reporter on the occasion, and favored us with the following:—

The Autumn meeting of the English races this year, owing to a variety of causes, failed to be as attractive as usual. The attendance on the course was limited—carriages few and far between—about 40 ladies, and 387 people on the grand stand. Subjoined is the programme, but the only real race of the day was between Yatay and Adios. The English horse got beaten, and Britishers lost heavily. Both horses ran well, but Yatay held the lead nearly all the time. This was the only race people took much interest in. None of the Government people attended. Had the weather been less threatening, as the day was made a holiday by order of law, doubtless half Montevideo would have been on the course; but so much uncertainty existed as to whether there would be races or not that even Mr. Robert Wilson, one of the committee, did not leave the city until a very late hour. As is usual, the gathering of foreigners was very great, whilst the rural native element was still greater. I noticed no row; everything seemed to pass off quietly. I heard on the course that the Dutch Consul, Mr. Schwartz, accompanied by the captain of the Brownlow, had a very narrow escape on the road out; and by the sheerest good luck one of those accidents which too frequently occur in England on such occasions—from incautious driving—was avoided. On the road home there were a few tumbles, but nothing of consequence. Carriage hire was so monstrous that most people went out on horseback. I galloped down the Calle 18 de Julio—at the head of forty Britishers; a policeman attempted to stop us; we charged in close column—splendidly done. What became of the policeman I cannot say, but we all dashed into town at a few minutes after six o'clock, nearly all of us lighter in pocket than when we started. That Yatay horse cleaned out many a poor captain and clerk. The total gains of the Yatay-men is put down at so high a figure that I am afraid to send it to you. Buenos Ayreans would not credit it; but they must remember the "Curso Forzoso" is still the law here, and paper dollars terribly abundant.

LATEST FROM BRAZIL.

Rio, April 15, 1868.

To the Editors of the 'Standard.'

Gentlemen.

My last went forward by the Savoie, and as I had nothing further to communicate, I did not address you by the City of Brussels and Halley, which left this port for the Plate on the 12th inst.

In the City of Brussels Mr. Hadfield, the talented and worthy Editor of the "Brazil and River Plate mail," returned to the Plate. This gentleman who has by means of the press done so much both for your countries and for Brazil, was received here with great attention, and will no doubt be welcomed also among you in the manner he so thoroughly deserves for his disinterested efforts in behalf of the progress of South America.

The S. José transport left this port yesterday with a reinforcement of 200 men for the Brazilian army in Paraguay, and taking a supply of ammunition, &c.

The transport Arinos arrived here yesterday, and the advices by her were not considered so satisfactory as were generally expected; however we are assured that an attack on Humaita was imminent.

Sovereigns have advanced 138500. and will probably to-day obtain still higher rates.

Exchange continues 19½d to 20d, and on Paris 387 rs. per franc.

Brazilian 6 per cent. Stock 87½ per cent.

Freights for Channel 45s. and 47s. 6d., for New York 45s.

The Government has authorised the operations of the Botanical Garden Railroad Company, of which the Engineer resident here is Mr. Greenough.

The Poitou leaves to-day for Europe.

Major Pimentel, commander of the the City Police force (Urbanos), died on the 13th inst. from the effects of the cold and wet he sustained while performing his duties during the Holy Week. Captain Antunes has assumed the command of the force 'pro tempore.'

The Uruguay, from the Plate, not yet arrived.

The French packet not yet signalled.

Narcissus arrived this morning.

The French frigate Magicienne arrived here yesterday and the Entrecasteux the day previous.

CABRAL.

EDITOR'S TABLE.

We received no newspapers from Montevideo by the mail that came in yesterday, owing to the fact of Monday having been a holiday there on account of its being the day fixed for the English races, no papers appeared the following day. From passengers that came up yesterday we are informed, however, that in addition to the commercial crisis which preoccupies the public spirit, rumors of revolution become everyday more rife—and have induced the Government to arrest on Tuesday several reputed partisans of the Blanco party, among others Dr. Navarro Viola and Mr. Susviela.

We have much pleasure in welcoming Mr. Hadfield, the enterprising proprietor of the "Brazil and River Plate Mail," on his second visit to the River Plate. He arrived in town by the City of Brussels on Thurday morning and favored us with a call yesterday. We hope that his sojourn among us may be agreeable to this gentleman who has practically shown his lively concern for these countries by starting a periodical exclusively dedicated to South American interests, which is now one of their most important organs.

The subscription list in aid of the poor attacked by cholera in San Juan has been closed, having produced a total of $48,680 m|c. An account of its investment is promised by the promoters of said subscription as soon as the returns are obtained.

A fire broke out yesterday morning, at two o'clock, in the premises of Messrs. Ovel & Langhenein, shippers and dischargers, Calle Balcarce, between Calles Venezuela and Mejico. The tolling of the bells, even at that unseemly hour, brought together on the spot several neighbors, as well as some night revellers and others who prefer burning the midnight lamp to early rising. For a long time Mr. Demarque's fire engine was the only one to render any assistance; only about four o'clock the one from the Policia appeared on the scene of the disaster, when the fire was already greatly subdued. Several wooden sheds, filled with maiz and hay, fell a prey to the devouring element, with their contents. The loss is calculated in $100,000. The origin of the fire is as yet unknown; and what is a still greater mystery, is the disappearance of the man in charge of the premises, who lived in a room by the side of the entrance gate, and who was not present when the fire occurred nor has been heard of since.

We draw the attention of our readers to an interesting statement of the Montevidean Banks supplied to us by a subscriber and which we publish elsewhere.

The Ex-Governor of Santa Fé, Sr. D. Camilo Aldao, has published in the columns of our colleague, the *Republica*, a manifesto addressed to his fellow-cititizens in general showing the illegallity of Sr. Cabal's election, and entering a protest against the proceedings of the Nat. authorities, which rendered impossible the existence of the legal Government. It contains also a justification, addressed to the Santafecinos, of the conduct of the legal Government under the twofold pressure of the National Commissioner and of the retrograde party. We regret that its great length precludes our reproducing this remarkable document, which is well worth perusal.

We read in the Montevideo journals that the alarm of invasion at Paysandú was without motive. The precautions which were taken by the Gefe Politico were thought necessary, owing to reported movements of the Blancos in Entre Rios; but as these, it was known, were without the means of carrying out their designs, there were no fears entertained.

The Brazilian Commander, Sr. Barroso Baron de Amazonas, has been promoted to the rank of Vice-Admiral. Captains Fernando Lazaro de Lima, and Antonio Alfonso de Lima, have also received promotion.

The Spanish Admiral, Mendez Nunez, is expected in Buenos Ayres on a short visit.

The 'Telegrafo' of Montevideo has an article on the bank question. Our intensely comercial contemporary expresses itself dissatisfied with the several articles which have appeared on the subject in the different papers. It supplies the hiatus in the question by a few categorical remarks, numbered and paragraphed in the true 'London Economist' style.' The upshot of these seems to be that if the period for the suspension of specie payments be not prorogued, the country will be ruined. Our contemporary argues, that even were the banks in their present circumstances able to convert the twenty millions indebted, the gold would go out of the country, as there are not sufficient exports to be made, and that whatever inconveniences may arise from the continuance of the forced currency, they are nothing to be compared to the disasters which will ensue, from a forced resumption of specie payments.

The last lots of lands and houses in Klappenbach's quinta, will be sold by auction to the highest bidder to-day, at 3 p.m., by Mr. Billinghurst. Among the lots is the large house on the barranca, with land attached. The land auction by Mr. Billinghurst, on the estancia of Dn. Manuel Saavedra, near Tandil, is still fixed for the 5th of May. Independently of the special interest in the purchase, visitors will have huite a pleasant excursion to the only romantic bit of scenery in the province. They can make a 'pic-nic' of it, and lunch on the celebrated rocking-stons.

Commercial auctions are the order of the day in Buenos Ayres, judging from the advertising sheets of the newspapers. Up to the present not many cotton goods have been sold, and what have been disposed of at auction have fetched low prices; but merchants have to make some sacrifices in good articles to move off their winter stock and 'maulas.'

Under the heading of "Mercado para Flores" the 'Republica' of yesterday contains a very prettily written article advocating the establishment after the custom of all European capitals, of a Flower Market in Buenos Ayres, which besides offering a fair field of speculation would be a great ornament to the city, and become a favorite lounge for its inhabitants We highly approve the suggestion and shall be glad to see it realized.

The electors of President for Buenos Ayres are convened to a private meeting for to-morrow evening in Calle Parque No. 120. The 'Tribuna' in announcing this fact states that although the object of the meeting is not positively known it is understood to be for the purpose of agreeing upon a manifest which they intend to address to the rest of the provinces, and in which they will recommend the election of Sor Sarmiento for President and Sr. Alsina for Vice-President.

If our correspondents D y B require any further confirmation of our remarks on the price of capones we regret to say we can furnish it in abundance. In our yesterday's issue they may have seen in our Plaza report the sale of 1400 capones placed in the corrales at $14, and now we are informed that Sr. Arias, a well known and accredited broker, sold last week a flock of 2000 sheep and capones with a few big lambs at $8 per head.

A ship cargo of wheat from one of General Urquiza's farms on the Uruguay was sold yesterday in Barracas at $250 the fanega. We have been favored with a sample, which lies at our office, and from its fine quality we cannot help congratulating our distinguished friend the General on his success as an agriculturist.

We understand that several gentlemen, some of whom were among the founders of the British Library, are strongly opposed to any alteration in the rules and purposes of that institution; and they threaten to withdraw their patronage and subscriptions if an attempt be even made to amalgamate it with the innocent debating society. At the meeting which took place last night something more will perhaps have transpired so as to guage the general opinion on the subject. Our own notions are confined to the formation in Buenos Ayres of a kind of Whittington Club where young men can dine, and afterwards read and converse, play chess and billiards. These latter attractions, it will be said, can be had at the cafés, which, as a rule, young men will prefer. If it be so, of course, there is no further necessity to agitate the question. But at present we are convinced that if theso amusements were side by side with a good library and a general place for meeting, they would in themselves be more attractive, and the books would be more used than they are now; and would not be so much limited to a class of works more suited to the entertainment of elderly young ladies at an English watering-place, than to commercial men anxious to read up the questions of the day. The circulating library would still continue as it is, for the benefit of ladies and people at a distance. It is really, in the first instance, only a question of removing the library and the reading-room to more spacious and more inviting quarters, and with a due regard to financial matters, gradually adding the conveniences of a club. We should like to know what are the objections of the dissentient elders.

Our subscribers who are interested in the prices of cereals and flour will have remarked that we have redeemed the promise made by us of furnishing them daily with reliable quotations of the current prices of these articles.

Light is, undoubtedly, the great vivifier of the world's beauty, and those who labor to produce in the darkness of night the cheerful effects of the solar rays deserve well of mankind in general. In this sense our friend Mr. Sanford, the active and intelligent agent of Messrs. Lanman & Kemp, may be looked upon as our benefactor for having introduced into this benighted country so valuable an invention as Lanman & Kemp's Inexplosive Petroleum Oil, which gives a light unequalled by any other combustible matter for brilliancy and mellowness. Since we alluded the other day to this invaluable article—in which, by the way, our printer's devil inadvertently committed the error of disguising Mr. Sanford's name under an outlandish spelling—we have had numerous applications to know where it was to be purchased, and we now beg to refer parties interested to the advertisement in another column.

EXPORT OF LIVE CAPONES.

Carmen de Areco, April 26, 1868.

To the Editors of the 'Standard.'

Gentlemen.

Your paper which presents to its camp readers' matter, if possible more interesting each week, contained lately an article headed "Export of live Capones," which has drawn the attention of sheepfarmers on the subject. In the belief that this is really a practicable project, and wishing all success to the enterprising gentlemen, Messrs. Le Bas and Hughes, who have taken it in hands, I have with your kind permision a few remarks to offer, which I shall put in as small space as possible.

As water is the great desideratum in conveying live stock through a tropical climate, it follows that succulent food will be the most serviceable. No domestic animal requires less water than the sheep, nor does any animal thrive better on turnips and other bulbs, just the description of green crops that this country in most years is admirably adapted for raising; products which have an additional advantage in their facility for storage. Here is a new industry for camp people; how lucrative it is impossible to say, but looking at the wide margin between the price of a capon (pelado) here at $25 and in Liverpool or London £2 10s. or $307 it appears as if exporters had a heavy business before them, and could afford to pay a fair price for the very necessary item of supplies.

Seeing that chemistry and ingenuity have now laboured twenty years in the "Preservation of Meat" with no practicable result. I have little faith in the half dozen "Preservation" establishments lately set on foot here, and fear that the 'sheep-farmer that thinks that they will raise the price of his stock a single real, will pin his faith on a rotten reed. Why the price of meat, was as cheap and no cheaper twenty years ago, in Central America, the valley of the Crinco, our own La Plata, and parts of Australia, as it is to-day and at the same period rated nearly the same in Europe as it does at the present time. Thus we see all that modern science has done for the foreign breeder; and see the oft repeated phenomenon of starving thousands and within a few weeks sail, meat valueless from its abundance.

Believing in the export of live capones I trust to see it soon established as a profitable business.

With many apologies,
SIN-SEEN-AT-US.

NEWS FROM FRAYLE MUERTO.

ATROCITIES BY THE MUTINEERS.

The following extract from a private letter of an English resident in Frayle Muerto gives a sad glimpse of the state of affairs in the interior:—

Frayle Muerto, April 14, 1868.

I write you a few lines to ask if you can, among your friends, manage to find me some employment in a mercantile or any other house of business, or on any of the railways in Buenos Ayres, for, really, I am completely disgusted with this place, what with one thing and another. At present the town of Frayle Muerto is completely abandoned, owing to a party of fifty men who are going about this part of the country committing all sorts of outrages. Every man in authority has left, as the day before yesterday one of the Judge's here was taken out into the woods, half a league from the town, and there most brutally murdered, as his dead body proved, which was found yesterday morning, and also the officer who commanded the soldiers quartered at a fort some few leagues from here, who was quietly riding through the town, when he was suddenly dragged from his horse and shot and lanced there and then on the spot. Such brutal atrocities naturally make one wish to leave such a place.

WEST COAST MAIL.

VALPARAISO.

We—*The Valparaiso and West Coast Mail*—are informed, upon good authority, that during the past few days, almost the entire stock of cotton goods held by importers has passed into the hands of a few houses at rates which show a considerable improvement on our last quotations; consequently prices of these articles may be expected to advance considerably.

Most decidedly, Chile has been unfortunate in the acquisition of naval warlike elements, and to an extent which is incomprehensible. The detention of the two corvettes, and the failure to procure anything worth having in the States, and now the embargo of these monitors and the loss of all or the greater part of the money advanced thereon, is a series of *contremps* which does not reflect credit for acuteness and forethought upon the Government or its agents. The country requires vessels and must have them, but their acquisition being surrounded as heretofore with similar or even greater difficulties, and the measures hitherto adopted by the Government having proved entirely inefficacious for the purpose, we would recommend an entirely different policy in this respect. Instead of sending naval commissioners abroad for the purpose of superintending the building of vessels, whether destined to be embargoed or not, and instead of sending naval commissioners abroad for the purchase of useless vessels for which fabulous prices are paid—and instead of making contracts for the building of monitors with unknown insolvents and adventurers—we are opinion that a search in Valparaiso for honorable and competent houses to carry out the desires of the Government in the purchase of vessels, would not turn out to be fruitless; and when obtained, it is needless to add, it would be very easy (admitting such a thing to be possible), to provide against anything like the Armau dilemma.

We understand that by the last steamer an order has been sent to the well-known establishment of Hunt & Roskell, of London, for a cup to be run for at the next Spring Meeting.

Mr. Taylor Thompson, Minister for Great Britain in this country, having obtained leave of absence for six months, will be replaced by Mr. Rouse, English Consul in this port. M. Flory, French Minister, has also obtained a year's licence, and during his absence, his post will be filled by M. Giardot, Consul for that nation at Valparaiso.

BOLIVIAN GUANO DEPOSITS.

With regard to the importance of the guano of Bolivia and the quantity which may exist there, we will limit ourselves to stating, that this guano, which only a short time ago it was difficult to dispose of, and which was believed to be of little value compared to that of Peru, is to-day considered of the first class for its amononiacal qualities and consequently suitable to compete with that from the Chincha Islands; and as regards the quantity that may be extracted every indica-

tion justifies the belief that it is immense, particularly now that Mr. Lopez Gama has a powerful steam pump, by which means he can uncover all the ravines in which the guano is buried.

In spite of all my efforts to obtain exact details of the number of tuns of guano already taken from Paquica during years past, I have not been able to procure them up to this date, and the only statement I can make from trustworthy sources, although of a private nature, is that Mr. Gama has already paid to the Government or its official representatives not less than $500,000 being in the proportion of about $50,000 per annum. If this is correct, Paquica has already been a fount of wealth to the nation, and Mr. Gama is the one who has more than any other contributed to its production.

"SOUVENIRS DE GOTTSCHALK"

You will find me soporific and lugubrious, my dear L., but I have just been sick, am now having a headache, and it rains. I am alone in my hotel bedroom—and feel my isolation all the more from the joyous holiday-noises which come borne on the wind outside. Moreover, I am morally and physically tired of 'la vie de carpet bag,' which I have been leading for eight months past. Nobody can give seven concerts a week, month in and month out, without his intelligence (be the same more or less) finally taking it in high dudgeon. Certain naturalists pretend that insects reflect in their conformation the characteristics of the surrounding vegetable life. If this phenomenon extends to pianists, I ought by this time to have the manners of a locomotive and the soul of a trunk. I have certainly passed five-sixths of my life's last three hundred days on the railroad. The most pitiable of isolations is that experienced by the curious beast shut up in a cage and exposed to the gaze of a crowd. It is mine. Never to be anything but a kind of abstraction; to be an artist and not a person; having no right to divert any of the sympathy accorded to the pianist into the channel of the man; forever imprisoned within the merciless limits of the 'Paid for;' unable to conquer those intimate affections which are independent of the prestige conferred by celebrity, (deserved or not;) to belong to all, yet to be nobody's;—such, my dear friend, is the other side of that brilliant (?) career to which I am condemned.

I had got thus far in writing you when a friend entered my room and handed me to read the Indianapolis correspondence of the Home Journal, signed 'Mrs. Frank Smith,' and treating of my concert in the town from which it hailed. You will easily realize all the pleasure which it gave me. I have often received praise in the course of my artist-life, [and who has not?] but never has any so deeply touched me as this paragragh in the article of your kind and spirituelle lady correspondent:—

"The Cradle Song—is it not a mother's heart set to music? Bending over my own sleeping little one, but now, on coming home, I felt like blessing him who has thus given melodious utterance to the holiest of human feelings—a mother's love. A good man must be be—the composer of the 'Berceuse'."

Had I never obtained a reward beside the approbation of this young mother, I should feel that I had not wasted time in writing the 'Cradle Song!"

Music, you know, is a mirror in which, according to our mood, we see a reflection of the images which engage us most. It is a sketch which we color with our own dominant passions. Its language being comparatively undefined, it has, over written poetry, the advantage of imposing no boundries upon the hearer's thought, of opening infinite spaces wherein his soul may spread its wings to rove unmanacled. Thus, a sweet and plaintive melody, heard by a mother who has lost her baby, a lover who bewails his mistress, an exile who dreams of his far native land, to each of these sorrowing hearts will appear the echo of its own proper grief, and the reflection of its musings.

I was led to compose the 'Berceuse' by memories of a younger sister of mine, dearly loved and brought up by me, whom I cradled in my arms during her infancy through a painful illness which threatened to take her away from me. Finally, thank God she triumphed over it. I imagined her lying in her cradle as of old, and at the thought of losing her, all my youthful emotions, all my affection, ripened by age and strengthened by absence, sprung up afresh to be condensed into this little morceau, which, despite its trifling artistic value, I dearly love because it recalls to me a great sorrow once spared my heart.

I repeat to you, that no praise has ever touched me more deeply than this mother's recognizing, in my poor little piece, a reflection of her own love for the baby over whose cradle she bent on returning from my concert.

* * * L. M. GOTTSCHALK.

LETTER

THE RESPONSIBLE ORGAN

The stomach is responsible for more evils than were contained in Pandora's Box. Atonie, dyspepsia, or simple indigestion, is the first indication, of more than half the diseases enumerated in medical books. Meet it at once with BRISTOL'S SARSAPRILLA, the most genial tonic and corrective which the botanic kingdom has yet yielded to chemical science. Invigorate the stomach and gently stimulate its gastric action with this famous restorative. Remember that the digestive apparatus is the primary source of vitality from which the whole body draws its supplies, and that BRISTOL'S SARSAPARILLA is a specific for the disorders that affect it. In all diseases affecting the liver, stomach, or bowels, BRISTOL'S VEGETABLE PILLS should be used at same time with the Sarsaparilla. 516

National Bonds remain at 42½, cash; little business doing. From the persistence which these securities exhibit in not declining below 42½, it is expected that those who have been forced to sell have already done so, and that the present bears are not in possession of many Bonds. For June buyers at 44½ for large amounts.

Exchange flat; not much done—drawers not anxious to place any large amount of exchange.

The Money Market continues in a depressed state; discounters are unable to collect bills falling due. The few who are in funds use the greatest precaution, although there is a disposition to prefer six months' pagares for the sake of the high interest now ruling.

According to our information, there is a very small stock of wool outside, for which reason sellers are firm in their demands. The stock in the Plazas and Southern Railway Stations is abundant and of good quality. Great animation in dry hides.

Our special reporter at the South Plaza states there was very little done on account of the weather. The following are the sales—

IMPERIAL PETROLEUM,
IN PATENT TIN CANS.
BRILLIANCY, ECONOMY, SAFETY!

The Undersigned beg to inform the Public that they have received direct from the Proprietors, Messrs. LANMAN & KEMP, NEW YORK, a shipment of the above Celebrated Petroleum Oil, which has established for itself a reputation for excellence surpassing all other Petroleums. The following are some of the qualities possessed by it:—
1st. By a great improvement in Refining, it is freed from the Gaseous Naptha, and will, therefore, stand a higher degree of heat than other Petroleums before Igniting, thus making it much safer; in fact, almost
NON-EXPLOSIVE!
2nd. It is pure white in colour, has scarcely any smell, and is clean and pleasant to handle.
3rd. It has a much greater density or heaviness of body than ordinary Petroleum—a large part of which latter passes off in Gas,—the Imperial Petroleum being Pure Oil will, therefore, with rare exception,
BURN 25 PER CENT. LONGER!
than other Petroleums
4th. The flame from the Imperial Petroleum is a pure white, while nearly all other Petroleums give a yellow opaque flame. On this account, two Lamps burning the Imperial Petroleum will give as much Light as THREE Lamps burning ordinary Petroleum.
5th. It burns clear and steady without flickering, which is a great relief and saving to the eyesight.
6th. It does not Crust in the Wick, and, therefore, requires Trimming but seldom.
7th. The Imperial Petroleum is shipped in Patent Tin Cans, not liable to leak, thus avoiding the loss so often entailed upon the buyer, and being from one vein of Oil, it is always uniform in colour and qualities.
We respectfully ask the attention of Families, Storekeepers, and those who have in charge the Lighting of Schools, Churches, Public Halls, and Street Lamps to this very superior Oil, which, from its SAFETY, ECONOMY, and BRILLIANCY, they will find admirably suited for their various purposes.

THE ACME OF MEDICAL SCIENCE
IS ACHIEVED IN THE WONDERFUL DISCOVERY OF NEW MEDICAL PRINCIPLES IN
DR. RADWAY'S
PERFECT PURGATIVE PILLS
COATED WITH SWEET GUM.
1st Principle—A vegetable substitute for Calomel or Mercury is secured.
2d. A cathartic that cleanses the alimentary Canal and its neighboring Viscera as thoroughly as Lobelia does the stomach.
3d. Functional Harmony is secured to the secreting vessels of all the organs and glands in the system.
4th. Purification and equalization of the circulation of the blood.
5th. The properties of these Pills communicate a nutritious principle to the blood and reparative secretions
6th. A great want is supplied in their soothing, healing and expulsive power in cases of intestinal ulceration, as in Eruptive Fevers, where a cure depends upon free evacuations.
7th. The aged and persons suffering from paralysis of the bowels, by the use of one pill per day, secures regularity.
Persons suffering with any disturbance of the secretary organs, or that have difficulty in discharging the contents of the bowels, or that are in the habit of taking Pills or opening medicines, should try one box of these truly excellent Pills. The happiness of their effects on the system, and the satisfactory evidence one box will give you of their wonderful curative powers, will convince you that your faith and trust in them will become firmly established.
RADWAY'S
REGULATING PILLS.
A newly discovered principle in vegetable medication is securred in Radway's Regulating Pill, that places them far in advance of all other Purgative or Cathartic, Aparient or Sedative, and Anti-Bilious Medicine. They are the only vegetable substitute for Calomel or mercury known; the only Medicine that, during their process of purging, imparts nutriment to the debilitated system, and strengh, vigor and purity to the blood, and impaired secretions; the only purgative that will cleanse the Alimentary Canal and obstructed intestine as quickly and thoroughly, without weakening or neausoating the patient, as Lobelia (the most active and thorough emetic of the herbist) will the stomach, and the only purgative at present known safe to administer in case of Small Pox, Yellow Fever, Erysipelus, and other Malignant Fevers, that inflame and ulcerate the mucuous membranes of the Bowels, Stomach, &c.
THE PROPERTIES OF
DR. RADWAY'S PILLS.
They equalize the circulation, Purify the Blood, and Purge Corrupt and Acrimonious Humors, and retained deposits from the system in six hours.
AS A CATHARTIC, the increase, when suspended, the peroitaltic movement of the bowels, and promote a quick evacuation of its contents. Their influence is extended throughout the system, purging the retained deposits in the stomach, into the duodenum, stimulating the secretory, ducts of the pancreas and liver, in the promotion and increase of the flow of bile and pancreatic fluids.
PURGATIVES of common aloes exert their action on the colon and rectum by irritation of the mucuos membrane, without influencing the liver or its secretions. Such cathartics are unsafe in pills for general use. The common Cathartic Pills, that induce drastic liquid discharges, should never be given in cases of inflammation, or when there is ulceration of the intestinal canal.
THE APERIENT and mild LAXITIVE properties of RADWAY'S PILLS are the best safeguard in these disorders, and in all cases of eruptions and malignant fevers their balsamic, healing and sothing properties protect the coats of the alimentary passage against the irritant and acrid humors of the fauces.
THE NUTRITIOUS AND TONIC properties of these Pills are of great service in depleting fevers and uterine discharges, likewise as a dinner pill, to increase the appetite and promote digestion.
THEIR SEDATIVE properties allay pain in the nervous system, stomach and bowels, either from inflamation, colic, flatulence, wind, cramps, &c.
THEIR COUNTER IRRITANT influence extends throughout the system where there is inflamation, congestion or irritation, stimulating the blood and nervous fluids in the congested vessels, and equalizing its circulation. The principle of Counter irritations is generally applied to external remedies. Its application, internally, in the form of a purgative medicine, exemplified in Radway's Pills, has proved a wonderful curative principle, readily withdrawing from the blood and fluids their acrid and irritating humors.
AS DIAPHORETICS OR SUDORIFICS they stimulate the secretions of the skin, induce exhalation of obstructed perspiration.
THEIR DIURETIC properties act on the kidneys, correcting and regulating the flow of urine.
THEIR ANTI-BILIOUS properties stimulate the liver in the secretion of bile, and its discharge thorogh the biliary ducts. In all cases of Headache, Jaundice, Bilious Attacks, Saffrom-colored Sking, Impaired Digestion, caused by the overflow of bile and its mixing with the blood, these pills, in doses four to six, will quickly regulate the action of the liver and free the patiedt from these difficulties. One or two of Radway's Pills taken daily, by those subject to bilious pains and torpidity of the liver, will keep the system regular and insure healthy digestion.
In case where there is severe inflamation, paralysis of the bowels, and a speedy discharge of their contents required, grind six of the pills to a powder and take in some preserves or water. In half an hour the pills, given in this way, will generally operate. The dose can be repeated, if necessary, in two hours. We have known the pills, given in this form, to open the bowels ween Croton Oil, Elaterium, Podophyllum 'Mandrake' have failed. It is seldon that a second dose will be required in these cases of Intestinal Obstructions.

DR. J. COLLIS BROWNE'S CHLORODYNE IS THE ORIGINAL AND ONLY GENUINE.

This invaluable Remedy produces quiet refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and Young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively, using it in great quantities in the following diseases:—Consumption, Asthma, Bronchitis, Whooping Cough, Newralgia, Diarrhœa, Rheumatism, Spasms, &c. Important testimonials from numerous medical men accompany each bottle.

CAUTION.—Always ask for "Dr. J. Collis Browne's Chlorodyne," and see that his name is on the Government stamp. Sold in Bottles at 1/1½, 2/9, and 4/6, by all Chemists.

SAVINGS BANK.

BANK MAUA AND CO.

101—Cangallo—103.

BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P.P. MAUA & Co.,
M. A. DE FREITAS AMORIM.

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p.%) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishe can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book, it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

PURE, SWEET, COD LIVER OIL.

The most celebrated Chemists and Physicians of all Countries agree in recommending the Oil extracted from the livers of Cod Fish, as being the best remedy that science has yet discovered for the cure of the diseases that affect the

THROAT, LUNGS, AND CHEST.

And long continued experiments in the Public Hospitals of Paris, London, New York, and in this country have proved that pure Cod Liver Oil exercises the most beneficial effects on such diseases as

SCROFULA AND RHEUMATISM.

The great difficulty heretofore has been to procure an article reliable as to purity. The demand in Europe and America exceeding by many thousands of gallons the entire product of all the Cod Fisheries, in consequence of which unprincipled persons have flooded the markets with Land Oil, Cotton Seed Oil, Linseed Oil, &c., imposing it upon the Public as genuine Cod Liver Oil, greatly to the detriment of health. Our

PURE, SWEET, COD LIVER OIL

Is by special agreement shipped to us by our own Agents, direct from the Fisheries at Newfoundland, and delivered to us under Seal in our Store in New York. At various times, during the last five years, we have submitted our Cod Liver Oil to the

SEVEREST CHEMICAL TESTS,

Made by the first Physicians and Chemists in Cuba, Mexico, Peru, Chile, Rio de Janeiro, &c., who have unanimously declared it to be the purest and best article of the kind ever tested by them, and that it contains

IODINE IN GREATER ABUNDANCE

Than any other Oil they had seen, and this being the life-giving property in all Cod Liver Oils, it becomes evident that the sick will find in ours a more reliable remedy than in any other.

To hasten the cure of all throat, lung, and Chest Diseases, our

KEMP'S PECTORAL OF ANAÇAHUITA

Should be used along with the Oil, as they are prepared so as to act in complete harmony together.

BISHOP'S

GRANULAR
EFFERVESCENT CITRATE OF MAGNESIA
INTRODUCED AND PREPARED BY
ALFRED BISHOP, MANUFACTURING CHEMIST
17 & 18, Speck's Fields, Mile End New Town
LONDON.

This perfectly white and dedicately clean granulated preparation possesses remarkable effervescent qualities, which far surpass the ordinary Seidlitz Powder in its cooling, refreshing, and mild aperient properties, as well ast in its flavour as a saline draught. It is particularly well adapted for women and young children, on account of its most agreeable flavour and mild effect.

N.B.—The genuine has the name BISHOP upon the Bottle, also the Name and Trade Mark upon the Label, and is sold in convenient sizes, and secured in so perfect a manner that it may be shipped with safety to any part of the world.

Manufacturer also of Granulated and Effervescen Carbonate of Iron, Citrate of Iron, Citrate of Quinine, and Iron, Carbonate of Lithia in Tubes, Citrate of Lithia, Vichy Salt, Seidlitz Mixture, and all other Granulated preparations.

Inchancery.—Caution.—Bishop's Granular Effervescent Citrate of Magnesia.—Mr. Bishop, having discovered that the Label which he as used for the last five years was being imitated, recently applied to the Court of Chancery for an Injunction to restrain such imitation. The Injunction was immediately granted, and the Defendant was ordered to pay all Mr. Bishop's Costs and destroy the Labels complained of, also Bishop's New Remedy for Sea Sickness should be in the hands of every person travelling by Sea. 225 28p m27 1f p
